Prix : 60.00€

WUNDERKEY CARBON AIR

Torn pockets, the annoying jingling and the search for the right key are a thing of the past with Wunderkey. Timeless design, the best materials and maximum functionality make the Wunderkey your new favorite accessory. In a Wunderkey, your keys are organized in the tightest space possible and can be folded out when they are needed, comparable to a pocket knife. In addition, the Wunderkey can be equipped with useful add-ons such as a multitool, a USB 3.0 stick, a shopping-cart solver or a key ring to attach the car key.

If you love elegance, you'll love the Wunderkey leather designs even more. The combination of the finest leather and components made of stainless steel ensures a retro look of the extra class.

The Wunderkey Leather Oxford Green is made of high quality and robust cow leather. Due to the smooth surface structure, the leather is insensitive to external influences and is characterized by its durability. The Wunderkey is refined by an all-round seam in elegant green.

Size: 2-8 keys (expandable to up to 16 keys with extension set) Customizable with add-ons (e.g. multitool or USB stick) Simple assembly (without tools) High quality and robust cow leather 100% Made in Germany
